

View list of voter serial numbers, bus sequences for ballot box transportation, and 50m restricted signage zones

 By dd mmm (Polling Day), 8.30pm

 View

 Candidates and their polling agents may observe that polling in the electoral division the candidate/group of candidates is contesting in is carried out in accordance to the law. They may check against the list of voter serial numbers to verify whether a voter is eligible to vote at the polling station. You can download the list of voter serial numbers (.pdf format).

One candidate or one polling agent (per vehicle) may observe the process to transport the sealed ballot boxes from polling stations to counting centres of the electoral division the candidate/group of candidates is contesting in. Buses may be used for the transportation and one bus may serve up to 6 polling stations. You can download the sequence of polling stations that each bus serves (.pdf format).

Public display of Traditional Election Advertising (TEA) in the area within 50m of any polling station established for the conduct of poll for the electoral division the candidate/group of candidates is contesting in (i.e. restricted signage zone) is prohibited. You should access OneMap app to check the 50m restricted signage zone of each polling station to ensure that your TEA are publicly displayed outside the restricted signage zones.
